## We are Nude

We live in a confusing world; too many choices, too many products, too much 'noise'.

Nude believes things can be different; the remedy simple.

Simple is beautiful.

Simple is pure, clear, transparent.

Simple is useable, clean, uncluttered.

Simple is convenient, reliable, timeless.

Simple is all of these things, and also the reason things are so rarely simple.

Because designing and making something simple is not as simple as it seems.

Simplicity means caring enough to consider actual needs before refining them to their essence - nothing more, nothing less, the final object easy to understand, use and live with.

This means getting closer to the user in order to determine where less equals more, and form most perfectly meets function; where everything is always in the right place at the right time.

This idea of simplicity is the guiding principle behind Nude.

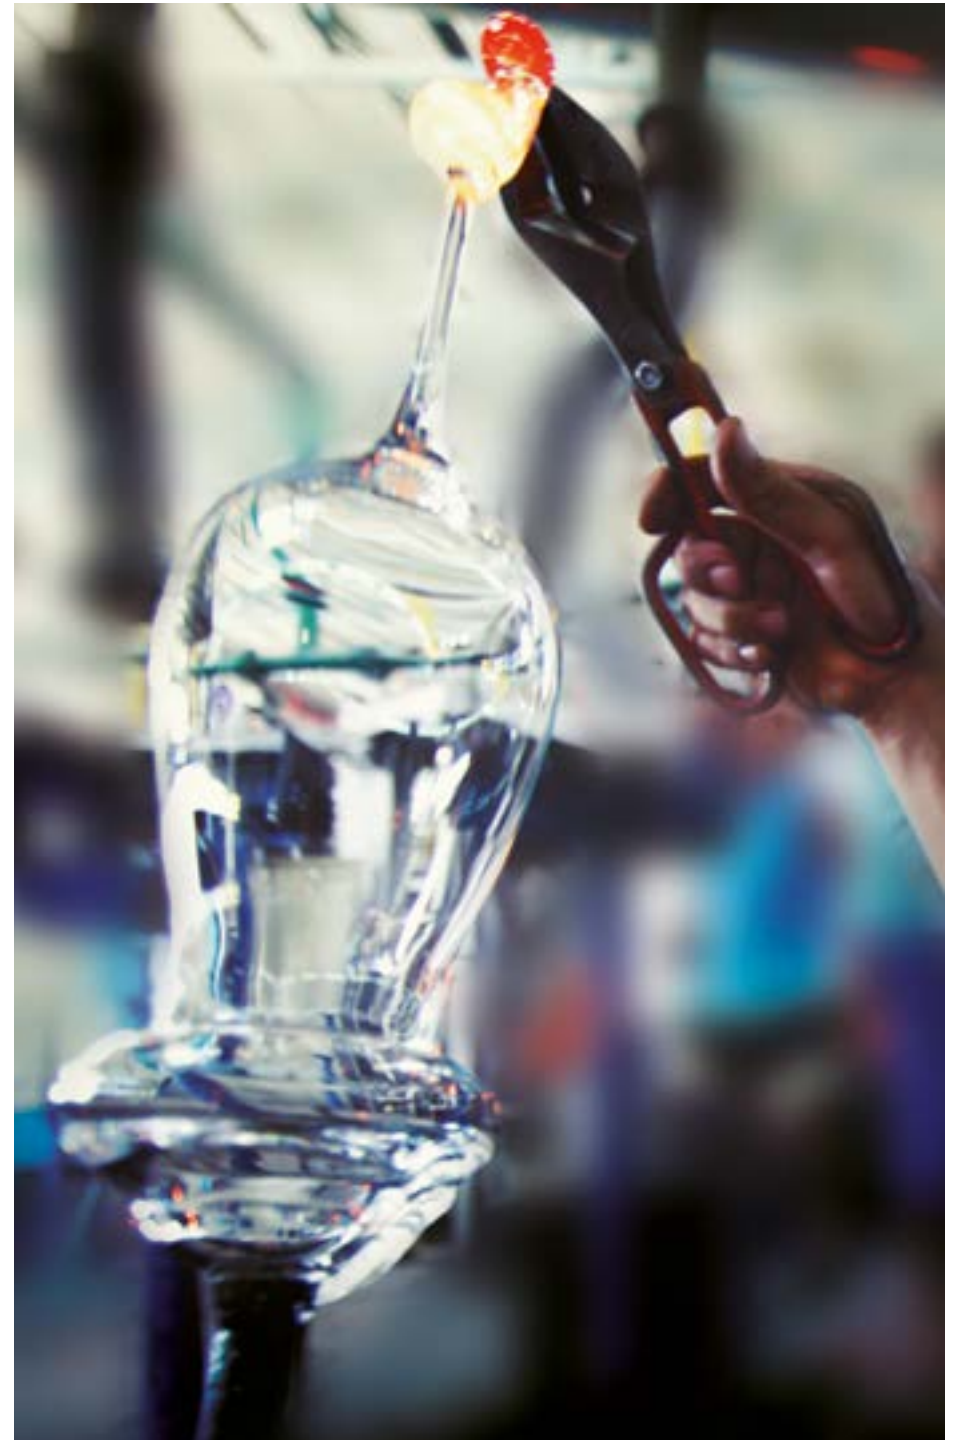

It is reflected in our design-aesthetic, our mind-set and culture.

The result is our promise reflected in glass.

Nude... simple is beautiful.

The Signature Collections are an on-going dialogue between creative genius, exquisite materials and glass.

Nude offers the platform, process, craftsmen and furnace.

The design is manifested by the masters (the collaborating partners), who bring their personal value to the process.

The Nude Signature Collections push the boundaries of what's achievable, questioning the fundamental possibility of things.

In doing so they create the new.

Always simple.

Always Nude.

# Ron Arad

An icon as an architect and industrial designer, Ron Arad ignores the notion of formal disciplines and boundaries. He is a creator in the purest sense, his portfolio of work is a testament to his creative genius and free spirit. He defines design as, 'the act of one imposing one's will on materials to perform a function'. He is a constant innovator, questioning, challenging, re-thinking and reinterpreting the objects that surround our daily lives. The Ron Arad Signature Collection for Nude includes iconic pieces such as the 'DecanteRing,' 'Red or White?' and 'Wine Party,' all masterfully hand-crafted in lead-free crystal glass.

*For me design is to do something that did not exist before. Ideas should serve us;  
we shouldn't serve the ideas.  
Like this glass collection we have created. People always ask: Form or function?  
They are not at war with each other;  
they work together.*

As someone once said: 'Wine is just a conversation waiting to happen,' and it is in that spirit the DecanteRing exists. A symmetrical cylinder of perfectly-blown glass, this beautiful artefact enables the wine to breathe properly, while letting light and movement play around the liquid, a constant reminder of its intoxicating properties. The degree of craftsmanship involved is extraordinary, the glass cut and polished to perfection.

A flirtatious range including a decanter, jug and two glasses. The way the glass leans, mirrors the way people bend closer to hear conversation or whisper a secret. The shape of the glass also makes reference to the tipsy-like state a party engenders. Also note the upside-down wine glasses. No need to waste time when moving from white to red; a twist of the wrist and one can proceed uninterrupted.

Ingenious, playful, intuitive and practical, the Wine Party range is a series of glasses designed for the party experience. Their precisely-weighted stems allow them to be rested on surfaces, but also easily slipped into a pocket or purse. Hands are freed for more important purposes: greeting, cajoling or gesticulating. For those reluctant to let go of their glass, the soft curve of the stem fits like a glove.

# Nigel Coates

Nigel Coates is one of the UK's most creative thinkers, architects and educators. He is the designer of everything from ground-breaking restaurant and retail interiors to museum extensions in London, and high-end products for grand European marques, all informed by a sensual and organic quality and a fluidity of line. He has written with unbridled imagination about what cities could be, and fiercely defends the idea that function and aesthetics can happily co-exist. He divides his time between the UK and Tuscany. It is this close relationship with Tuscany, and its grand wines, which has directly informed his first collection for Nude.

*Nude is a premium brand with a strong design sensibility, so I'm proud to be part of it. And it's interesting to work in a context where there's no looking back. Nude is very much about the here and now.*

GLASS IS  
TOMORROW

A quartet of glasses designed by the always stylish Englishman Nigel Coates. The selection, like the designer himself, is confident, charming, yet eminently usable. The hand-blown tumbler is cleverly ridged, almost inviting the user to hold it in their hand. The wine glasses are also extremely tactile. The champagne glass is as charming as a cocktail dress and demands to be admired. At once playful yet refined, Heads Up is a marvellously individual and memorable range.

Memento Mori, from the Latin 'Remember you will die' is less a doom-laden prophecy, but instead an inducement to live every day to the full, as if it might be your last. In homage to the idea, the NUDE Memento Mori collection is a series of exquisitely crafted human skulls in lead-free crystal glass, created by two dynamic designers.

Ali Bakova is a leading light in design education in Istanbul, working in an environment where the industrial meets the aesthetic. His work is both playful yet functional, mixing the classic with Pop culture, as evidenced when he was asked what inspired his Memento Mori collection:

"First I thought of Hamlet's famous soliloquy, 'To be or not to be! But second, I thought of the film 'Indiana Jones & the Kingdom of the Crystal Skull.'"

**Ali Bakova**

The second designer working on the Memento Mori collection, Erdem Akan, is an energetic exponent of contemporary design, creating interiors, products and exhibitions that combine East with West, old with new.

His Punk Rock roots inform his creativity, combining attitude with humour, personality with style.

"I create things for modern living. I'm not nostalgic or futuristic. I'm interested in the right now."

**Erdem Akan**

Exquisitely sculptured glass ornament designed by Istanbul-based Ali Bakova. Shaped as the top half of a human skull, the ornaments rest on a flat base. They come in jet black, crystal clear, and opaque white glass. The pieces come in two sizes, offering a bold or subtle addition to any desk or bookshelf. The glass is cut in sharp prismatic strokes, reflecting the light in a powerful way. They are iconic items, and the centrepiece of the NUDE Memento Mori collection. The skulls act as a constant reminder of our mortality, and an inspiration to live life to the full, making the most of every moment we have.

Inspired by his Punk Rock roots, Erdem Akan has always been keen to mix the dramatic with the playful. While respecting the beautifully macabre aspect of the human skull, he chooses to place it on its side - as if sleeping - while at the same time making it useful. It's a bold statement, full of wit and attitude. The skull acts as a bowl, and what you decide to put in it - a simple flower, coloured candies, pens and pencils - allows you to make your own statement about life... and death. The skulls come in three iterations of glass: crystal clear, opaque white, and jet black, each one providing a striking addition to any room.

Built of solid glass and with the placement grooves facing each other, this is an ashtray to be shared, an ashtray that engenders discussion, a sharing of ideas, or late night attempts at putting the world to right. It comes in clear glass or black, reflecting the smoker's personality.

A simple jewellery tree made from oak, set within a pure glass surround in either clear or green. The design cleverly enhances the jewellery, the contrast between the organic and the hand-crafted, both charming and practical. Reminiscent of a bird cage, the soft curve of the dome beautifully sets off the sparkle of necklaces, bracelets and rings.

An innovative range comprising of two elegant crystal vases and two bowls all with an arresting copper base. At once solid yet ethereal, the vases seem to disappear as they reach their apex, allowing the contents to take over the drama. The base suggests the vases are separated into three layers - metal, liquid, air - creating superb visual impact. The shorter of the two vases allows a fuller bouquet of flowers, the sweep of the glass rising from the base mimicking the very growth of a flower itself.

The second Contour collection is a limited edition of two vases and two bowls. Similar in design to their counterparts in the range, they differ in that they have a lighter gold base.

This creates a more liquid sense to the products, the gold is more reflective, the inner and outer patina contrasting slightly, adding a feeling of mystery and depth. Effortlessly elegant, the vases have a softly-rounded base, offering a receptacle for long or short stemmed flowers.

The wide-profiled bowls can be used as table displays or for more functional purposes at meal times. All in all, a welcome addition to the range.

A play on the term Demi John - the traditional French jug used to ferment wine - these two brushed-grey vases can be used as ornaments, or to hold a single flower. The XL version is a floor standing item, the smaller sized is for a windowsill or bookshelf. Using them to refract light adds a startling sense of drama to any home.

The Eden that comes in two sizes, is an exquisitely manufactured glass terrarium - a miniature garden. Lying atop a bowl of moulded concrete (is a substance that lies at the heart of the Nude ethos, being that it is simple yet graphically strong), the Eden can be used for planting all year round. For those less green-fingered, it also makes a beautiful candle-feature for both indoors and out.

A solid yet dynamic candle holder, its base is weighted for stability, making a perfect container for a candle or potted plant. The top half of the candle holder lifts off for ease of access, resting elegantly on a subtly grooved rim. Curved towards its opening, the glass is transparent, allowing for both air and light while protecting the contents from external elements.

For those who prefer a life untroubled by other people's points of view, the Egoist is the answer. Ingeniously formed in solid glass, it sits perfectly in the palm of your hand, yet can also be rested on any surface. Offered in transparent clear or black, the Egoist is a must-have for the solitary smoker.

A solid clear glass mortar, more than strong enough for the grinding of herbs and spices. The pestle comes in an all-natural wood with a grey coloured handle. Not only functional but elegant as well.

Fumo is a solid piece of crystal clear glass, heavy and demonstrative, smooth to the touch. It's a personal ashtray, perfectly sized to sit on an arm-rest or side-table. The bowl of the tray itself precludes any chance of ash being spilled. The deep groove leading from the bowl to the edge, wide enough to sustain the most Robusto of cigars.

For the dashing provocative woman, or the solidly stable man, the Fumo is a wonderful gift, and a beautiful adornment to any room.

A magical glass vase in smoked grey, its angles are Escher-like in their seeming illogicality. The vase appears to be triangular and circular at the same time, and the way the glass twists around itself creates a fascinating illusion. The edges are soft and slightly elliptic making the vase beautiful to touch. An object which will highlight any room, the Inca comes in two sizes, both as mesmerising as each other.

A large plate or bowl, the In or Out is a reversible item that can be used either as a bowl, or when tipped over, as a cake stand. Another centrepiece, it comes in either transparent green or opaque white. As a bowl it can be used for multiple purposes - eg: a hallway receptacle for keys, credit cards and mobile-phone. More traditionally the In or Out makes a perfect table adornment for fruit and nuts.

Another reversible item, the vase is a large blown-glass bowl in smoked grey or nude pink. Turned on its head it also works as a display-stand for cakes and desserts. Its soft curves are irresistible, providing a magnificent pedestal for any display.

A series of sleek table top serving bowls in a variety of colours and sizes. The bowls perfectly marry the masculine and feminine with their crisp rim and velvety curves. A collection of three bowls ingeniously designed to replicate the shape of a lily when placed together. The hand-blown crystal is perfectly clear with an exquisitely fine finish. All three items are gently curved, the bowl suggesting the cupping of hands as it sweeps towards the precisely cut rim. As the bowls become smaller they also become deeper and are thus tailored to suit a variety of contents. Simple but dramatic, a wonderful selection for any table. The Lily line can be bought as a set or individually.

GLASS IS  
TOMORROW

From the designer Tamer Nakışçı this trio of vases are made in an extraordinary clear yet corrugated glass. The rippled effect creates an optical illusion reflecting the different colours of the contents in an almost magical way. Flowers particularly are beautifully presented in these vases, the undulation blurring the stems, bringing into focus the colour of the petals. However the wider versions are also suited to storing newspapers, books or magazines. Simple but unique, these items works perfectly both in a domestic and professional environment.

A large family of vases, the glass Mono Boxes' simplicity allow maximum enjoyment of whatever you choose to put in them. Whether an aquarium, an array of stones, or desert plants, the clarity of the surface brilliantly enhances the contents. The larger vases in blue feel almost liquid. An art piece in themselves they can also be employed for multiple uses, such as a punch bowl or ice bucket. The more modest sized vases are perfect for fruit or candies. The smallest in the range is wonderful for all manner of items: jewellery, makeup, tissues, cotton wool. They make a perfect gift, not only for others but yourself. The ones in opal grey work brilliantly on an office desk. As a receptacle for business cards, usb sticks, paper clips, rubber bands, they are a simple way of clearing clutter while at the same time, making a stylish statement.

Nacre is the substance that makes up the coating of pearls; it is what creates their iridescent effect. These glass bowls in two sizes that Nude have created bear testament to this, both forged in a lustrous and shimmering pink or opal gray. Their ergonomic design also reflects a pearl's shape, making them not only visually attractive but wonderful to touch. The way the lip of the bowl conceals the contents, also suggests a notion of mystery.

A decorative dish in opal white, opal lila, opal gray and black with a softly edged rim. The shape is both organic and fluid, echoing nature and a sense of the sea. Can be used flat, or as a decorative piece hanging (from a door handle or peg). Reversible, it can also be employed as a paperweight or as place marker. A delightful thing that adds character to any space, the different varieties of Pebbles means they can be mixed to create an environment of your own choosing.

Exquisite, minimal, feminine, and sensual. Sweets is a set of three vases quintessentially NUDE. In a delicate brushed pink and resting on a gloss white base (which also acts as a tray), these vases are both striking and blissful. Perfect for bathrooms and bedrooms, their luxurious surface invites you to touch, so softly curved is the sand-blasted texture.

The colour is iridescent, at once soothing yet simple. Cleverly designed for a single-stemmed flower, the Sweet vase brilliantly lives up to its name.

'Alba' is Gaelic for Scotland, the collection pays tribute to the spiritual home of whisky. The elegant glasses are punctuated by a hand-engraved and cleverly deconstructed Tartan pattern. Each glass is heavy-bottomed, and each carefully tapers towards the brim, holding in the subtle aromas. The decanters, also incorporating the ingenious tartan etching, are punctuated by a unique stopper which leans omni-directionally, inviting the more dedicated whisky lover to point the stopper in the direction of Scotland.

A sophisticated yet witty piece of craftsmanship, the Arch whisky bottle, a set of two glasses, and a matching bowl, are a group of perfectly balanced items that seem to defy logic but sit solidly on any surface. The subtle curvature of the glass base reflects the delightful swirl of a single malt, creating a sense of energy to an activity often perceived to be placid. The pieces have a subtle interlocking design that allows them to fit together imaginatively.

Simple, understated, and quintessentially Nude, the Barcelona glasses can be used anywhere, at anytime. Deliberately designed to blend into the background, the Barcelona glasses still deliver an exceptional drinking experience. A solid and satisfying item, they are the go to glass for straightforward drinking.

An original line of glassware created by award winning Turkish designer, Ali Bakova, the range begins with a highball glass for mixed drinks. The shorter version makes a perfect tumbler. Funkier than its brother, it feels solid in the hand, but still offers a radical and imaginative option.

The 'Camp' collection consists of a decanter and two matching glasses. The glasses are beautifully styled, both heavy-bottomed and feel satisfying in the hand. The decanter has been designed to deliberately reflect a traditional hip flask, an item often passed around a roaring campfire. The integrated brass "X" coasters at the base of the items suggest the warmth emanating from burning logs, not dissimilar to the feeling one gets from tasting a great whisky. The decanter is finished with a solid glass stopper, sitting perfectly in the neck of the bottle. The result is a stylish and imaginative collection, full of character and originality.

A big beast of a decanter, this is a hugely impressive item guaranteed to turn heads at any party or gathering. In black or clear lead-free crystal, the Cantina holds a full Magnum of wine. Named after the wineries in Italy and Spain, the Cantina is a must for all festive occasions, bringing joy and delight to family and friends.

The mother bowl is 250mm across and works as a centre-piece. The baby bowl, an ideally-sized 75mm, is perfect for side tables. A solid clear glass mortar, more than strong enough for the grinding of herbs and spices. The pestle comes in an all-natural wood with a grey coloured handle. The straight lines of the Finesse range are made to appeal to the minimalist. Strict in their simplicity, the glass is also extremely fine, providing a crisp and delicate drinking vessel, enhancing the flavour of any concoction. Finesse in name and nature.

Quintessentially NUDE. These are two tall yet minimal clear glass jugs with a heavily-weighted base. Simple yet elegant, they need never leave the table, but because of their brilliant design, they also fit perfectly into the door of a refrigerator, keeping the contents refreshingly cool. An opaque grey or pink glass lid rests on top, protecting the contents from any unwanted odours.

A carafe designed for Armagnac, Cognac or desert wine, the Finale is like the last chord of the symphony, a magnificent ending to a perfect meal. The clear glass is finished with a beautiful cork stopper, allowing the colours of the liquor to shine through.

Like an exclamation point, the Focus is a simple smoked grey bottle with a cleverly-designed lid that doubles as a measuring glass. Perfect for olive oil or special vinegars, its svelte design means it works brilliantly either in the kitchen or the dining table.

A trio of glass ice buckets appropriate for every occasion. Purchased separately, the largest of the three is a champagne cooler that can hold a magnum. The second is a white wine cooler. The third and smallest, is perfect for solo-bottles, or keeping ice ready for cocktails. Each bucket is decorated with a pair of hand-pressed dimples that not only make each item a one-off, but also makes it easier to hold.

A neat set comprising of jug, ice bucket, high ball glasses, and whisky glasses. Can be purchased together or separately. In homage to the great American writer, the glass is bevelled, rugged in the hand, and possesses a deep and solid bottom. Perfect for long evenings watching the sun go down.

Gently widening as they near the lip, the Highland range of glasses are big, weighty and profound. The wider brim allows for a fuller appreciation of the drink's aroma, the bottom thick and solid as befits the needs of any whisky connoisseur.

A beautifully crafted champagne cooler. Measuring 500 mm across, this clear glass bowl is large enough to hold two bottles of champagne, ensuring the party never wait for the next bottle to arrive perfectly chilled. It can alternatively carry three bottles of white or rosé wines.

Made to resemble blocks of frozen water, they make perfect serving receptacles for ice cream or amuse-bouches. When not dining, they also work brilliantly as holders for tea-lights. In fact their use is only limited by your imagination.

Jour is a collection of wine and water glasses, a jug and a decanter. The essential shape of the wine glasses is square, but they widen towards the brim, the lip gently softened and curved outwards, providing a delicate contrast to the straight lines. The longer red wine glass is bisected by a delicate ridge, providing a subtle yet characterful feature. The decanter is a solid and reassuring piece of design, echoing the same lines of the glasses, and with a solid glass stopper. The corresponding jug is completed with a rounded handle, each end beautifully finished with a glass sphere. The spheres suggest ice cubes or cherries, reminding the user that the jug can also be used for fruit juices, punches or colourful cocktails.

Studio Formafantasma emphasize the manual genius and honor the traces left by the artisan's hand during the crafting of their tableware. Pigmento re-interprets a traditional hand-making technique used to add hue to glass in the process of mouthblowing an object, an intuitive process that generates a different result every time. Through the milky material, amorphous accents of colourful pigments are blown, smoke-like, emphasising the serendipity and uniqueness of each piece.

Continuing the theme of synchronicity, Nude offers a stylish matching water bottle and set of glasses in either clear or green. The glass is ribbed, almost like corduroy, creating an extraordinary tactile experience when held in the hand. The narrowing at the top of the glass also helps keep liquid cool. A stunning adornment to any table.

A range of exquisitely simple wine tumblers. Classically stylish, these can be used for both informal and formal affairs. Designed to appeal to a less traditional consumer, the Pure's zen-like tone works perfectly when it comes to a more relaxed decor and lifestyle. The glasses also feel wonderful in the hand.

A set of five glasses, the Refine series is appropriate for all wines and champagnes. The red wine glass comes in two options - a narrow and wide body - perfect for both medium and full-flavoured wines. The white wine glasses, like the red, are subtle in design, the lower curvature of the glass either softly rounded, or slightly more flattened for a more distinctive grip. The champagne glass tapers ever so gently towards the rim, trapping the flavours while enhancing the drinking experience. As suggested by its name, a refined yet multi-purpose collection.

A water carafe in smoked grey, this has been designed for the kitchen or dining table. Each carafe comes with its own perfectly fitted glass, which also acts as a cover, preventing any unwanted invaders, especially when dining alfresco.

A clear carafe matched with a set of two glasses. The bottle comes with its own cork stopper, but the glasses can also be used as a lid. Each bottle can be offered to a guest individually, creating an imaginative touch to their dining experience.

Stem Zero is a simple and elegant range of highly sophisticated glassware made to satisfy the most discerning wine connoisseur. The glass is so fine and so light that it defies belief. Such is the remarkable quality of the glass that it creates a sensation of weightlessness, that the wine is being held by an invisible force, allowing you to savour the aroma and taste of wine in a way that, until now, was considered unimaginable.

The Tilt family of carafe, water jug and oil & vinegar bottle, is a handsome collection made for the kitchen but sophisticated enough for the table. Their clever design makes them easy pouring devices, while the glass is weighted for maximum stability. Each comes with an ergonomically designed glossy-black stopper to keep the contents fresh.

A slightly bolder and more exotic range. The extraordinarily delicate stems support a deep and sensuous bowl, both enlivening the wine, while emphasising its aromatic potential. A range for the wine hedonist.

The Wayne series consists of drinking glasses designed to underscore the aesthetic purity and radiance of crystalline glass. Each piece features a variety of reflections created by bold vertical scoring, equivalent to crisp pleats in a dress shirt. A horizontal channel at the bottom of each glass deepens the luminosity of each. Meanwhile, it clearly distinguishes the upper and lower elements of the objects and enriches the occasional overlay of cuts and reflections that are visible in different combinations at different angles.

GLASS IS  
TOMORROW

An extraordinary and original piece created by the Swiss-based and award-winning designer Tomas Kral. "The two parts of the lamp are assembled together by simple rubber bands which refer to the top of a hot-air balloon. This minimal connection creates a tension sufficient to maintain the stability of the lamp, and also allows quick disassembly for changing the bulb." Light and airy, the lamp, though sturdy, seems to float.

For a slightly softer look, the Mira lamp opens out like a ball-gown, sending a wider beam of light. Incorporating the same concrete socket of its brother lamp, the Mira maintains an air of simplicity while still offering fantastic personality and style.

A superb lamp, minimal in design yet strong in attitude, the Mono is made from blown unworked glass. Determinedly non-ornamental, it retains a strong sense of style, its concrete socket working in perfect balance with the simplicity of the glass itself. Embodying loft living, the Mono is a stunning centrepiece for any room.

A truly dramatic addition to any room, the Orion night light is an extraordinary piece of design. Essentially simple in its make-up, the crystal glass shade resting on a solid concrete base hails back to the Sci-Fi movies of the 1950's. The brushed surface running across the top of the glass means the light is diffused across the room, providing a soft and soothing glow perfect for bedrooms or any relaxing space.

The Smooth bedside lamp is comforting, minimal, soft, and unobtrusive. Its space-age design emits a warm glow, the feel of the lamp organic, the textures tactile. The main shade itself is made of opaque glass, contrasting effectively with the slate stone base, the matt and gloss finishes acting in harmony. Such is the skill of NUDE's glass-blowers, the density of the light gently changes as it hits different areas of the lamp. The Smooth is an endlessly fascinating thing, dreamy yet practical, simple yet unique.

A clear, or green glass night-lamp set on an ingenious oak base. The soft curves of the shade are both homely and inviting, the light creating a soft glow around the room. The sympathetic combination of glass and wood suggests both nature and nurture.
